A wide variety of clear colors express realism in the model.

Clear Color Series

006 Flat Base

Product : 33006
number Contents : 15ml
price : ¥275 (tax included)

It is an additive for creating a matte effect by mixing it into paints. Adding about 10% will make it semi-glossy, and adding about 20% will make it matte. It is only a guide, so please adjust it yourself.

Matting additives

007 Clear

Product : 33007
number Contents : 15ml
price : ¥275 (tax included)

This paint is used for finishing to make glossy models.

polish

008 Flat Clear

Product : 33008
number Contents : 15ml
price : ¥275 (tax included)

It is the paint that is coated at the end to make it uniformly matte.

Brushed

030 Semi-Gloss Clear

Product : 33030
number Contents : 15ml
price : ¥275 (tax included)

It is clear to make the model semi-glossy and uniformly glossy. I think there are many people who can finish with this semi-gloss, such as character models and scale models. Please use it as the final touch of the model with the high-performance semi-gloss clear in Gaia color.

Semi-gloss

041 Clear Red

Product : 33041
number Contents : 15ml
price : ¥275 (tax included)

It is a dye-based clear red.

* The color of the dye-based paint may seep out on the paint applied on top of it.

Dye-based clear

This is a pigment-based clear paint. It is a rare paint that is white with a transparent base. It can be used widely from character types to figures. It is a paint that can create new expressions. Clear coating

Pigment-based clear

About Gaia Color

If you want to dilute Gaia Color, use Gaia Color thinning solution.

The characteristics of lacquer-based paints are that they dry quickly and have good workability, good color development, and strong coating film, but since a strong solvent is used, please be careful when ventilating.

Gaianotes' Gaia Color Thinning Liquid Series consists of the four types on the left (T-4 Gaia Color Thinner, T-01 Brush Master, T-06 Moderate Solvent, and T-07 Metallic Master).
