

Metallic Color
METALLIC COLOR

Gaia-color series color series

It is a metallic color series that can express an overwhelming metallic feeling. Using a metallic master will further increase the metallic feeling.

Starbright Series New Colors

126 Starbright Champagne Gold **NEW**

Product : 33126
 number Contents : 15ml
 price ¥385 (tax included)

It is almost pale silver gold.

metallic

Metallic Color Series

009 Bright Silver

Product : 33009
 number Contents : 15ml
 price ¥275 (tax included)

It is a basic silver that reproduces a texture close to metal. Bright silver has a weak surface, so if you coat it clearly, the surface may become dull, and the paint may peel off when wiping off the enamel paint. Also, please use a dilution rate that is less than normal paint.

metallic

010 Bright Gold

Product : 33010
 number Contents : 15ml
 price ¥275 (tax included)

It is the basic gold that reproduces the texture close to metal.

metallic

020 Gunmetal

Product : 33020
 number Contents : 15ml
 price ¥275 (tax included)

It is a basic silver that reproduces a texture close to metal.

metallic

Starbright Series

121 Starbright Silver

Product : 33121
number Contents : 15ml
price ¥385 (tax included)

It is a high-quality silver with an even more metallic texture than bright silver. It is different from the texture of plating, but it has a beautiful silver color.

metallic

122 Starbright Gold

Product : 33122
number Contents : 15ml
price ¥385 (tax included)

It is a fine metallic gold of the Star Bright series. It has a beautiful finish with finer particles than 010 gold.

metallic

123 Starbright Duralumin

Product : 33123
number Contents : 15ml
price ¥440 (tax included)

It is a special metallic color that reproduces the texture of real duralumin with the addition of pearls.

metallic

124 Starbright Brass

Product : 33124
number Contents : 15ml
price ¥385 (tax included)

It is a bright gold color with the image of brass, which is stronger than Star Bright Gold.

metallic

125 Starbright Iron

Product : 33125
number Contents : 15ml
price ¥385 (tax included)

It is an iron color with a strong blue tint based on the fine-grained silver of the Star Bright series.

metallic

Primary Metallic Color

038 Primary Metallic Red

Product : 33038
number Contents : 15ml
price ¥440 (tax included)

It is a metallic red colored aluminum. You can paint vividly and evenly. It can be mixed with other primary metallic colors.

metallic

039 Primary Metallic Blue

Product : 33039
number Contents : 15ml
price ¥440 (tax included)

It is a metallic blue colored aluminum. You can paint vividly and evenly. It can be mixed with other primary metallic colors.

metallic

040 Primary Metallic Yellow

Product : 33040
number Contents : 15ml
price ¥440 (tax included)

It is a metallic yellow colored aluminum. It can be said to be gold, but it has a strong yellow tint and can be used as a substitute for yellow. You can paint vividly and evenly. It can be mixed with other primary metallic colors.

metallic

Primary metallic color paint swatch

The primary metallic color is the metallic color that is colored by aluminum particles. Since the particles themselves are colored, they are less likely to be uneven, and colors such as green and orange can be created by mixing colors with primary metallic colors.

About Gaia Color

If you want to dilute Gaia Color, use Gaia Color thinning solution. The characteristics of lacquer-based paints are that they dry quickly and have good workability, good color development, and strong coating film, but since a strong solvent is used, please be careful when ventilating.
