Semi-gloss

221 German Grey (Dunkelgrau)

Product : 33221
number Contents : 15ml
price ¥330 (tax included)

German gray, which is active not only in German tanks but also in character models, is now available from Gaia color. It is a real German gray, accurately represented from the RAL color chip.

Semi-gloss

222 Oxide Red (anti-rust primer color)

Product : 33222
number Contents : 15ml
price ¥330 (tax included)

It is a real primer color reproduced from the primer that remained on the back of the paint fragments of a real German tank. Various theories and colors are written in the literature, but the color of RAL should not apply to the color of the primer. This primer color is proposed from the valuable materials of tanks of

Semi-gloss

223 Interior colors

Product : 33223
number Contents : 15ml
price ¥330 (tax included)

It is the interior color that is said to have been used in the interior of tanks in the latter half of the war. It is said that the dark color of the first period became such a light color in the later period. There are various theories about this color, but it is a color that I arrived at from many materials and interviews of

Semi-gloss

Fighter Color Set

Zero Fighter Paint Zero Fighter Gray-Green Set

Product : 31006
 number Contents: 15ml each
 price ¥1,100 (tax included)

Gaianotes discovered a color sample book established for the aircraft of the former Japan Navy, and found the true color of gray-green from the standard materials of Showa 17. This is the gray-green color of truth. The unfaded, real Zero Fighter is now revived. Gray-green becomes semi-glossy. The metallic color duralumin of the fuselage has also been completely reproduced.

German Tank Afrika Korps <1941/1942> Set

Product : 31005
 number Contents: 15ml each
 price : ¥880 (tax included)

Faithfully reproduce the popular Afrika Korps colors by age. Of course, the colors of that time are expressed from the RAL color chip. The German tank series has gained great trust with its three-color camouflage set, so this time too, the color will not disappoint fans. Please imbue the color reproduction that was created only because of Gaia Color, which has good color development and high hiding power, and imbues it with real power.

German tank three-color camouflage set

Product : 31004
 number Contents: 15ml each
 price : ¥880 (tax included)

The color of the German Quality Assurance and Labeling Association (RAL) color chips has been completely reproduced. By preparing two types of dark yellow, you can reproduce the changes of the times and battle areas. We will deliver a new standard to the particular military fans. Since it is a color of the actual car scale, it has a real power. If you value the scale for the model, please brighten it by adding white. All are semi-gloss (semi-glossy) colors.

Included in the set

About Gaia Color

If you want to dilute Gaia Color, use Gaia Color thinning solution.
 The characteristics of lacquer-based paints are that they dry quickly and have good workability, good color development, and strong adhesion. However, since they are lacquer-based, they may be sensitive to weathering.
